EDUCATION

Gujranwala Guru Nanak Khalsa College

BCA - Bachelor of Computer Applications - **CGPA - 8.5**

Aug 2022 – July 2025

Ludhiana, Punjab, India

EXPERIENCE

Software Developer Intern - Auribises Technologies Pvt Ltd

Aug 2025 – Present

Technologies: Flutter, Dart, Firebase, React, TypeScript, Tailwind CSS, Jira, Postman Ludhiana, Punjab

- Developed cross-platform mobile applications using Flutter and Dart, implementing responsive UI with Material Design principles and clean architecture (MVVM/MVC).
- Integrated Firebase services including Authentication, Firestore, Cloud Storage, and Cloud Functions to enable secure login, real-time data sync, and scalable backend operations.
- Built reusable UI components, applied state management, and ensured smooth navigation and responsive layouts across different screen sizes.
- Implemented REST API integrations, handled JSON parsing, and optimized performance with proper error handling, loading states, and debugging.
- Worked on UI development and enhancements for the **Gurbani Made Easy** mobile app, improving layout consistency and navigation flow, which increased overall usability by approximately **20%**.

PROJECTS

Eventify - Event Booking App

Aug 2025

Technologies: Flutter, Dart, Firebase, Firestore, React, TailWind CSS, TypeScript, OpenStreet Map,

- Developed a full-featured event booking application with user authentication, event browsing, booking management, and digital ticket generation.
- Implemented real-time seat availability tracking using Firestore listeners and synchronized booking data across multiple users.
- Integrated interactive maps with OpenStreetMap API to display venue locations and provide navigation assistance to users.
- Built a responsive admin panel with React and TypeScript for managing events, users, and bookings with real-time analytics dashboard.
- Designed clean UI with Flutter widgets and ensured smooth navigation between screens with proper state management.

Civic Bridge – Public Issue Reporting System

Nov 2025

Technologies: Flutter, Dart, Firebase (Auth, Firestore, Storage), Firebase Cloud Functions, React, TypeScript

- Developed a public issue reporting platform with role-based access for citizens, technicians, and administrators to manage complaints efficiently.
- Implemented secure authentication and real-time complaint tracking using Firestore with status workflow (Pending, In Progress, Resolved).
- Built dedicated modules for each role: citizen complaint submission, technician task assignment and updates, and admin dashboard for monitoring and management.
- Integrated Firebase Storage for image attachments and used Cloud Functions for scalable backend logic and notification handling.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript, TypeScript, Dart

Mobile App Development: Flutter, Dart, Android Studio, Material Design, Responsive UI, Cross-Platform Development

Flutter Skills: State Management (Provider, BLoC, Riverpod), MVVM/MVC Architecture, Navigation, REST API Integration, Async/Await, JSON Parsing

Testing: Manual Testing, Functional Testing, Smoke Testing, Sanity Testing, Regression Testing, UI Testing

Databases: Firebase Firestore, SQL, MongoDB

Developer Tools: Git, GitHub, VS Code, Android Studio, Jira, Postman, Figma

CERTIFICATIONS

- Agentic AI with Python – Auribises Technologies Pvt. Ltd.
- Introduction to Front End Development – Simplilearn
- Basic Computing Course – GGN Khalsa College
